FOIA #EPA-R8-2019-002353

Regarding Item #1 (NetDMRs), data can be obtained from http://echo.epa.gov, which is publicly available. As EPA has done for previous FOIAs, we could assist the requestor with ECHO, if necessary.

Items #3-5 are publicly accessible documents that the requestor can find on the Colorado Environmental Records page at https://environmentalrecords.colorado.gov/HPRMWebDrawer/Search. EPA would not have these documents unless they were requested from the state by one of our inspectors as part of preparation for an inspection in which EPA did not end up participating.
